Govt tightens rules on wheat product exports

FE BUREAU New Delhi, August 8

THE GOVERNMENT ON Mon-

day sought to tighten rules on exports of wheat flour and other related products and mandated that such despatches will be subject to the submission of quality certificates issued by the Export Inspection Council or its affiliates. The certificates will be over and above the current requirement of recommendations by an inter-ministerial panel.

Industry sources said the aim of the notification by the Directorate General of Foreign Trade (DGFT) is to discourage exports of wheat products to keep domestic supplies steady and prices under control.

The notification will come into effect from August 14. However, until August 14, those consignments that have already been handed over to the customs or where loading has taken place will be allowed to be despatched, according to the

Mandi prices of tomato, onion see sharp decline

SANDIP DAS New Delhi, August 8

MANDI PRICES OF tomato and onion have witnessed a sharp decline in the last month because of improvement in supplies due to more-than-adequate monsoon rains in key producer states of Maharashtra, Karnataka, Andhra Pradesh and Madhya Pradesh.

The benchmark mandi prices of tomato at Kolar in Karnataka stood at ₹600 per quintal on Monday, down 25% from a month ago. According to mandi officials in Kolar, supplies have been adequate and prices are expected to hold at the current level for the next few weeks.

However, mandi prices of potato in Agra increased 15% to ₹1,550 a quintal. Traders say prices are expected to rise prior to the arrival of next year's crop by October. Retail prices are in the range of $\geq 25/30$ a kg.

"Arrivals of tomato are expected to be robust in the next two months provided excessive rains in August do not adversely impact the yield," Uday Deolankar, former adviser to the Maharashtra Agricultural Prices Commission, told FE. In June, mandi price was pre-

vailing at more than ₹3,000 a quintal, which pushed retail prices to ₹90/100 a kg.

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the government were shown as ₹60,907 crore or 0.3% of GDP. However, the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil avia tion did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Sebi asks SC to restrain Sahara from issuing misleading ads or statements The Sahara group has

New Delhi, August 8 THE SECURITIES

AND Exchange Board of India (Sebi) has moved the Supreme Court urging that Sahara India Group be directed to refrain from issuing"misleading"advertisement or statements that "obstruct" it from implementing the apex court's order of August 31, 2012, for refund of more than ₹24,029 crore raised from 33 million bond investors.

The group, including its chief Subrata Roy, have been issuing misleading advertisements (one being on April 23) in various newspapers, wrongfully claiming that the amount due to the investors by its firms, including Sahara Credit Cooperative Society Society, Saharayn Universal Multipurpose Society, Sahara Q-Shop, can be paid from the Sebi-Sahara refund account.

Sebi urged the apex court to direct the Sahara India Group of entities to restrain from issuing any advertisement or statement, in any manner whatsoever, in respect of the proceedings in the contempt petition pending before the SC.

Accusing that the Sahara group has been constantly obstructing the public authority from carrying out its statutory duties and implementing the SC directions, Sebi in its fresh application said the group "entities have by their various acts and

omissions, including by issuance of such defamatory, malicious and false statements and advertisements, have misled genuine investors, when those entities continue to wilfully disobey the 2012 judgment and subsequent orders by refusing to deposit the amounts directed and ordered to be deposited in the Sebi-Sahara refund account".

"The Sahara India group has thereby obstructed the implementation of the SC order which also amounts to contempt of the SC orders," Sebi said. Sebi has made its best efforts

in disbursing refunds amounts in spite of the continued failure of the contemnors (Sahara group firms, Royand some directors) in furnishing clarification, explanation and providing informa tion relating to disputed cases, etc, as reflected from time to time in its various status reports, the affidavit stated, adding that nothing further survives in respect of the implementation of the 2012 order "other than further attachment, sale of assets and realisation of monies".

Sahara group has been locked in a prolonged legal battle with Sebi for allegedly breaching norms in raising over ₹24,000 crore through bonds. The group was asked by the Supreme Court to deposit the funds with Sebi to refund investors, while it maintains to have already refunded most of the bondholders.

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the Rajya Sabha on Monday.

"An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022.

nd during surveillance, enforcement action has been taken by the aviation regulator against responsible airline personnel in 21 instances.

Tomato (Kollar,

Karnataka)

Heat waves during March-April in the key tomato-growing states of Maharashtra, Karnataka and Andhra Pradesh adversely impacted production and pushed up prices across the country in June. Currently, retail prices are at ₹30/40 a kg across major cities.

According to the second advance estimate of horticulture production in the 2021-22 crop year (July-June), tomato production is expected to decline by more than 4% to 20.34 million tonne (MT) compared to the previous year.

Meanwhile, benchmark mandi prices of onion (Lasalgaon, Maharashtra) have dropped 8% to ₹1,151 a quintal on Monday compared to a

month ago, because of a bumper Onion production in the

Potato

(Agra, UP)

2021-22 crop year is estimated at 31.7 MT, which is 20% more than the previous year. Retail prices are currently in the range of around ₹20/22 a kg. "Price of onions are expected

to fall further as farmers are bringing in their stored produce of summer crops," Balasaheb Misal, an onion farmer from Manmad, Maharashtra, said. In June, inflation for potato

and tomatorose by 23.86% and 158.78%, respectively, while onion price inflation was down 20.74% on year. Tomato, onion and potato have weightage of 0.6%, 0.6% and 1%, respectively, in CPI inflation.

Govt guarantees to CPSEs and other agencies at ₹4.67 trn by FY20

FE BUREAU New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday. In FY20, the additional guar-

antees extended by the government were shown as ₹60,907 crore or 0.3% of GDP. However, the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil avia tion did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Sebi asks SC to restrain Sahara from issuing misleading ads or statements The Sahara group has SC orders," Sebi said.

INDU BHAN New Delhi, August 8

THE SECURITIES

Exchange Board of India (Sebi) has moved the Supreme Court urging that Sahara India Group be directed to refrain from issuing"misleading"advertisement or statements that "obstruct" it from implementing the apex court's order of August 31, 2012, for refund of more than ₹24,029 crore raised from 33 million bond investors. The group, including its chief

AND

Subrata Roy, have been issuing misleading advertisements (one being on April 23) in various newspapers, wrongfully claiming that the amount due to the investors by its firms, including Sahara Credit Cooperative Society Society, Saharayn Universal Multipurpose Society, Sahara Q-Shop, can be paid from the Sebi-Sahara refund account.

Sebi urged the apex court to direct the Sahara India Group of entities to restrain from issuing any advertisement or statement, in any manner whatsoever, in respect of the proceedings in the contempt petition pending before the SC.

Accusing that the Sahara group has been constantly obstructing the public authority from carrying out its statutory duties and implementing the SC directions, Sebi in its fresh application said the group "entities have by their various acts and

Sahara group has been locked in a prolonged legal battle with Sebi for allegedly breaching norms in raising over ₹24,000 crore through bonds. INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the Rajya Sabha on Monday.

"An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an

inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022.

Govt tightens rules on wheat product exports

FE BUREAU New Delhi, August 8

THE GOVERNMENT ON Monday sought to tighten rules on exports of wheat flour and other related products and mandated that such despatches will be subject to the submission of quality certificates issued by the Export Inspection Council or its affiliates.The certificates will be over and above the current requirement of recommendations by an inter-ministerial panel.

Industry sources said the aim of the notification by the Directorate General of Foreign Trade (DGFT) is to discourage exports of wheat products to keep domestic supplies steady and prices under control.

The notification will come into effect from August 14. However, until August 14, those consignments that have already been handed over to the customs or where loading has taken place will be allowed to be despatched, according to the

In one year, airlines see 478 snags due to malfunctioning of components

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the

Rajya Sabha on Monday. "An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July

spike in outbound shipments of the commodity in recent weeks has threatened to undermine its ban on wheat dispatches.

Wheat flour exports witnessed a sudden and unusual surge in the aftermath of the ban on the outbound shipment of wheat on May 13, indicating that many traders might be using this route to beat the prohibition on the grain's exports. Usually, monthly exports at

this time of the year are about 6,000-8,000 tonne. However, flour dispatches exceeded 100,000 tonne within a month of the ban on wheat, according to industry sources. To be sure, flour exports were neither banned nor restricted when wheat shipments were prohibited in May.

In value terms, exports of wheat or meslin flour jumped 64% last fiscal from a year before to \$247 million, according to the DGCIS data. In contrast, wheat exports had jumped 274% in FY22 to \$2.12 billion.

Govt guarantees to CPSEs and other agencies at ₹4.67 trn by FY20

FE BUREAU New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the govern ment were shown as ₹60,907 crore or 0.3% of GDP. However the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Wheat flour exports witnessed a sudden and unusual surge in the aftermath of the ban on the outbound shipment of wheat on May 13, indicating that many traders might be using this route to beat the prohibition on the grain's exports.

Usually, monthly exports at this time of the year are about 6,000-8,000 tonne. However, flour dispatches exceeded 100,000 tonne within a month of the ban on wheat, according to industry sources. To be sure, flour exports were neither banned nor restricted when wheat shipments were prohibited in May.

In value terms, exports of wheat or meslin flour jumped 64% last fiscal from a year before to \$247 million, according to the DGCIS data. In contrast, wheat exports had jumped 274% in FY22 to \$2.12 billion.

2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday. In FY20, the additional guar-

antees extended by the government were shown as ₹60,907 crore or 0.3% of GDP. However, the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

In one year, airlines see 478 snags due to malfunctioning of components

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the Rajya Sabha on Monday.

"An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an

inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022.

Based on the violations found during surveillance, enforcement action has been taken by the aviation regulator against responsible airline personnel in 21 instances.

Govt tightens rules on wheat product exports

FE BUREAU New Delhi, August 8

THE GOVERNMENT ON Monday sought to tighten rules on exports of wheat flour and other related products and mandated that such despatches will be subject to the submission of quality certificates issued by the Export Inspection Council or its affiliates. The certificates will be over and above the current requirement of recommendations

by an inter-ministerial panel. Industry sources said the aim of the notification by the Directorate General of Foreign Trade (DGFT) is to discourage exports of wheat products to keep domestic supplies steady and prices under control.

The notification will come into effect from August 14. However, until August 14, those consignments that have already been handed over to the customs or where loading has taken place will be allowed to be despatched, according to the

Wheat flour exports witnessed a sudden and unusual surge in the aftermath of the ban on the outbound shipment of wheat on May 13, indicating that many traders might be using this route to beat the prohibition on the grain's exports. Usually, monthly exports at

this time of the year are about 6,000-8,000 tonne. However, flour dispatches exceeded 100,000 tonne within a month of the ban on wheat, according to industry sources. To be sure, flour exports were neither banned nor restricted when wheat shipments were prohibited in May.

In value terms, exports of wheat or meslin flour jumped 64% last fiscal from a year before to \$247 million, according to the DGCIS data. In contrast, wheat exports had jumped 274% in FY22 to \$2.12 billion.

Govt guarantees

New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the govern ment were shown as ₹60,907 crore or 0.3% of GDP. However the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Sebi asks SC to restrain Sahara from issuing misleading ads or statements

INDU BHAN New Delhi, August 8

THE SECURITIES Exchange Board of India (Sebi) has moved the Supreme Court urging that Sahara India Group be directed to refrain from issuing"misleading"advertisement or statements that "obstruct" it from implementing the apex court's order of August 31, 2012, for refund of more than ₹24,029 crore raised from 33 million bond investors.

The group, including its chief Subrata Roy, have been issuing misleading advertisements (one being on April 23) in various newspapers, wrongfully claiming that the amount due to the investors by its firms, including Sahara Credit Cooperative Society Society, Saharayn Universal Multipurpose Society, Sahara Q-Shop, can be paid from the Sebi-

Sahara refund account.

In one year, airlines see 478 snags due to malfunctioning of components

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to mal-

functioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the Rajya Sabha on Monday.

"An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe. efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022. Based on the violations fou-

nd during surveillance, enforcement action has been taken by the aviation regulator against responsible airline personnel in 21 instances.

Govt tightens rules on wheat product exports

FE BUREAU New Delhi, August 8

THE GOVERNMENT ON Monday sought to tighten rules on exports of wheat flour and other related products and mandated that such despatches will be subject to the submission of quality certificates issued by the Export Inspection Council or its affiliates.The certificates will be over and above the current requirement of recommendations by an inter-ministerial panel.

Industry sources said the aim of the notification by the Directorate General of Foreign Trade (DGFT) is to discourage exports of wheat products to keep domestic supplies steady and prices under control.

The notification will come into effect from August 14. However, until August 14, those consignments that have already been handed over to the customs or where loading has taken place will be allowed to be despatched, according to the

Govt guarantees to CPSEs and other agencies at ₹4.67 trn by FY20

FE BUREAU New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the government were shown as ₹60,907 crore or 0.3% of GDP. However the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for includ ing in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022.

Based on the violations found during surveillance, enforcement action has been taken by the aviation regulator against responsible airline personnel in 21 instances.

Govt tightens rules on wheat product exports

FE BUREAU New Delhi, August 8

THE GOVERNMENT ON Monday sought to tighten rules on exports of wheat flour and other related products and mandated that such despatches will be subject to the submission of quality certificates issued by the Export Inspection Council or its affiliates. The certificates will be over and above the current requirement of recommendations

by an inter-ministerial panel. Industry sources said the aim of the notification by the Directorate General of Foreign Trade (DGFT) is to discourage exports of wheat products to keep domestic supplies steady and prices under control.

The notification will come into effect from August 14. However, until August 14, those consignments that have already been handed over to the customs or where loading has taken place will be allowed to be despatched, according to the

Govt guarantees to CPSEs and other agencies at ₹4.67 trn by FY20

FE BUREAU New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the govern ment were shown as ₹60,907 crore or 0.3% of GDP. However the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Govt guarantees

to CPSEs and

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the govern ment were shown as ₹60,907 crore or 0.3% of GDP. However the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil aviation did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

In one year, airlines see 478 snags due to malfunctioning of components

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information

provided by Minister of State for

Civil Aviation VK Singh in the

Rajya Sabha on Monday. "An aircraft may experience technical snags due to malfunccockpit or an indication of an inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July 1,2021 and June 30,2022.

Based on the violations found during surveillance, enforce ment action has been taken by the aviation regulator against responsible airline personnel in 21 instances.

Mandi prices of tomato,

onion see sharp decline

RETAIL PRICES SET TO SOFTEN

MANDI PRICES OF tomato and onion have witnessed a sharp decline in the last month because of improvement in supplies due to more-than-adequate monsoon rains in key producer states of Maharashtra, Karnataka, Andhra Pradesh and Madhya Pradesh.

SANDIP DAS

New Delhi, August 8

The benchmark mandi prices of tomato at Kolar in Karnataka stood at ₹600 per quintal on Monday, down 25% from a month ago. According to mandi officials in Kolar, supplies have been adequate and prices are expected to hold at the current level for the next few weeks.

However, mandi prices of potato in Agra increased 15% to ₹1,550 a quintal. Traders say prices are expected to rise prior to the arrival of next year's crop by October. Retail prices are in the range of $\geq 25/30$ a kg.

"Arrivals of tomato are expected to be robust in the next two months provided excessive rains in August do not adversely impact the yield," Uday Deolankar, former adviser to the Maharashtra Agricultural Prices Commission, told FE.

In June, mandi price was prevailing at more than ₹3,000 a quintal, which pushed retail prices to ₹90/100 a kg.

Heat waves during March-April in the key tomato-growing states of Maharashtra, Karnataka and Andhra Pradesh adversely impacted production and pushed up prices across the country in June. Currently, retail prices are at ₹30/40 a kg across major cities.

According to the second advance estimate of horticulture production in the 2021-22 crop year (July-June), tomato production is expected to decline by more than 4% to 20.34 million tonne (MT) compared to the previous year.

Meanwhile, benchmark mandi prices of onion (Lasalgaon, Maharashtra) have dropped 8% to ₹1,151 a quintal on Monday compared to a

month ago, because of a bumper Onion production in the

In one year, airlines see 478 snags due to malfunctioning

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the

Rajya Sabha on Monday. "An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. Mandi prices of tomato, onion see sharp decline

SANDIP DAS New Delhi, August 8

MANDI PRICES OF tomato and onion have witnessed a sharp decline in the last month because of improvement in supplies due to more-than-adequate monsoon rains in key producer states of Maharashtra, Karnataka, Andhra Pradesh and Madhya Pradesh.

The benchmark mandi prices of tomato at Kolar in Karnataka stood at ₹600 per quintal on Monday, down 25% from a month ago. According to mandi officials in Kolar, supplies have been adequate and prices are expected to hold at the current level for the next few weeks.

However, mandi prices of potato in Agra increased 15% to ₹1,550 a quintal. Traders say prices are expected to rise prior to the arrival of next year's crop by October. Retail prices are in the range of $\geq 25/30$ a kg.

"Arrivals of tomato are expected to be robust in the next two months provided excessive rains in August do not adversely impact the yield," Uday Deolankar, former adviser to the Maharashtra Agricultural Prices Commission, told FE.

In June, mandi price was prevailing at more than ₹3,000 a quintal, which pushed retail prices to ₹90/100 a kg.

Heat waves during March-April in the key tomato-growing states of Maharashtra, Karnataka and Andhra Pradesh adversely impacted production and pushed up prices across the country in June. Currently, retail prices are at ₹30/40 a kg across major cities.

According to the second advance estimate of horticulture production in the 2021-22 crop year (July-June), tomato production is expected to decline by more than 4% to 20.34 million tonne (MT) compared to the previous year.

Meanwhile, benchmark mandi prices of onion (Lasalgaon, Maharashtra) have dropped 8% to ₹1,151 a quintal on Monday compared to a

2021-22 crop year is estimated at 31.7 MT, which is 20% more than the previous year. Retail prices are currently in the range of around ₹20/22 a kg. "Price of onions are expected

to fall further as farmers are bringing in their stored produce of summer crops," Balasaheb Misal, an onion farmer from Manmad, Maharashtra, said. In June, inflation for potato

and tomatorose by 23.86% and 158.78%, respectively, while onion price inflation was down 20.74% on year. Tomato, onion and potato have weightage of 0.6%, 0.6% and 1%, respectively, in CPI inflation.

Govt guarantees to CPSEs and other agencies at ₹4.67 trn by FY20

FE BUREAU New Delhi, August 8

GUARANTEES GIVEN BY the Centre to central public sector enterprises (CPSEs) and other bodies by end-FY20 stood at ₹4.67 trillion which constituted 2.32% of GDP, according to the Comptroller and Auditor General (CAG) report tabled in Lok Sabha on Monday.

In FY20, the additional guarantees extended by the government were shown as ₹60,907 crore or 0.3% of GDP. However, the Centre's guarantees amounting to ₹14,985 crore for borrowings of Air India Asset Holding Limited (AIAHL) and ₹5,262.30 crore raised by FCI were not considered for including in the relevant statement of the Union government finance accounts (UGFA). By including these omitted guarantees, the actual additional guarantees would be 0.4% of GDP for FY20, but still within the target of the FRBM (0.5% of GDP in any financial year).

On extra budgetary resources (EBRs), the CAG report noted that ministry of civil avia tion did not disclose ₹14,985 crore (arranged on government guarantee) raised by Air India Asset Holding Limited (AIAHL). Similarly, borrowings of ₹36,440 crore by IRFC for funding the projects of the Indian Railways were not disclosed.

Sundaram Finance PAT up 18%

FE BUREAU Chennai, August 8

SUN-CHENNAI-BASED **DARAM** Finance on Monday reported an 18% jump in profit after tax (PAT) to ₹226 crore for the first quarter of FY23 as against ₹192 crore in the corresponding quarter of the last fiscal year. Total income of the non-banking financial company stood at ₹942 crore as against ₹956 crore last year, registering a 1.5% decline. It logged the highest-ever Q1 dis-

executive VC Harsha Viji

bursements of ₹4,895 crore, marking 138% increase over O1FY22, and up by 31% sequentially over Q4 FY22.

Executive vice-chairman

Harsha Viji said, "We have reestablished our pre-pandemic growth trajectory with the highest-ever first quarter disbursements of ₹4,895 crore. Coupled with continued strong improvement in our asset quality levels and a healthy 18% increase in profits, we have delivered a strong quarter of growth with quality and profitability. Overall economic activity continues to improve across all segments despite inflationary concerns and related interest rate hikes."

"The Sahara India group has thereby obstructed the implementation of the SC order which also amounts to contempt of the SC orders," Sebi said. Sebi has made its best efforts

in disbursing refunds amounts in spite of the continued failure of the contemnors (Sahara group firms, Royand some directors) in furnishing clarification, explanation and providing informa tion relating to disputed cases, etc, as reflected from time to time in its various status reports, the affidavit stated, adding that nothing further survives in respect of the implementation of the 2012 order "other than further attachment, sale of assets and realisation of monies".

Sahara group has been locked in a prolonged legal battle with Sebi for allegedly breaching norms in raising over ₹24,000 crore through bonds. The group was asked by the Supreme Court to deposit the funds with Sebi to refund investors, while it maintains to have already refunded most of the bondholders.

In one year, airlines see 478 snags due to malfunctioning of components

PRANAV MUKUL New Delhi, August 8

INDIAN AIRLINES REPORTED 478 technical snags due to malfunctioning of components between July 1, 2021 and June 30, 2022, of which the most were witnessed by Air India, followed by IndiGo, SpiceJet and GoAir, according to information provided by Minister of State for Civil Aviation VK Singh in the Rajya Sabha on Monday.

"An aircraft may experience technical snags due to malfunctioning of components/equipment fitted on the aircraft which require rectification by the airlines for continued safe, efficient and reliable air transport service. These technical snags are reported by the flight crew on receiving an aural/visual warning in the cockpit or an indication of an

inoperative/faulty system or while experiencing difficulty in handling/operating the aircraft,"he said.

However, despite the high number of technical snags faced by airlines in the country, only 27 safety related issues happened in 2021 and 2022 (till July 25), according to a different reply by Singh in the Rajya Sabha. Following the increase in technical snags over the last one year, the Directorate General of Civil Aviation (DGCA) conducted 177 surveillance exercises, 497 spot checks and 169 night surveillance exercises on engineering and maintenance aspects of airlines between July
