Information required under Section 134(3) (m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Account) Rules, 2014

#### A. CONSERVATION OF ENERGY

The Company is committed to reducing its dependency on fossil fuels by transitioning to renewable sources of energy across all its facilities. To further support this goal, the company conducts regular inspections of all electrical equipment and installations to minimize energy wastage.

Additionally, the Company encourages all employees and workers to switch off electrical machinery when not in use, promoting responsible energy consumption throughout the organization.

As part of its long-term sustainability objectives, the Company aims to achieve maximum renewable energy usage and attain Renewable Electricity status by systematically replacing fossil fuels with renewable alternatives.

The Company has implemented several key initiatives to promote energy conservation and improve overall efficiency across its operations. These include the installation of energy-efficient lighting fixtures, which significantly reduce electricity consumption while maintaining optimal illumination levels. Additionally, measures have been taken to reduce power consumption in cooling towers through improved operational practices and system upgrades. The company has also undertaken the replacement of inefficient motors with high-efficiency alternatives, leading to enhanced performance and lower energy usage. Collectively, these efforts contribute to a substantial reduction in energy consumption, aligning with the Company's broader sustainability and environmental conservation.

#### B. TECHNOLOGY ABSORPTION
